Guests Dean Murray and Simcha Delft for Wed 21st July 7.30 pm

Dean Murray is a singer/songwriter whose songs are often drawn from everyday happenings, political, environmental and social with an occasional love song. In recent years some of Dean's songs have placed in writing competitions both here in NZ, the Pacific region and also USA. Delivered in a modern folk style on guitar and sometimes harmonica his performance always comes from the heart.

Simcha Delft is a world renowned instrument and amplifier maker and She often writes articles for magazines such as NZ musician. Known all over NZ in the folk scene she is often playing alongside NZ's folkies at different folk clubs. Lately Simcha has been developing a nice touch on a Mandola and adds a warm flavour to Dean's songs.

Simcha and Dean have been playing and practicing together now for year or so and have performed in local folk clubs and the occasional festival.

Finns Cafe Open Mic Nights every 2nd and 4th Wednesdays. This is a really popular night and a great way to meet other musicians.
